Dear Sir/Madam,

In our endeavour to provide quality education, we have implemented our premier software, NextLearningPlatform (NLP) in your school. Our software aims to meet the dynamic needs of present-day schools. This software release incorporates new features, improvements and additions which include

ADDITIONS IN THIS RELEASE

Module	Feature	Description	Path
Admission	Enhancements in admission process	In the Admission module, staff will be able to add remarks at each stage; moreover, they can fix a follow-up date at any stage of the admission process. Now staff will also have the option to trigger login credentials in the application step, the registration step, and the enquiry step. Additionally, to make it more convenient for the parents, as soon as they pay the admission fee, they will get an alert on their registered email ID.	Admission --> Manage Admission --> Application/Registration/Evaluation --> Go to any student ---> Follow up Admission --> Manage Admission --> Application/Registration/Evaluation --> Go to any student --> Remarks Log
Exam Corner	New question type added	Two new question types have been added in the question bank in Exam Corner: 1) Identify Hotspots 2) Label Hotspots	Exam Corner --> Question Bank --> Create New Question
Exam Corner	Enhancements to proctoring	1. The Attempt Info tab on the Live Proctoring page will now display the student's attempt start time, submission time, and attempt duration. The attempt status will also be updated properly when proctoring resumes after the teacher allows the student to resume the test. 2. An internet disconnection alert will be sent to the teacher if students face connectivity problems during proctored assessments.	Exam Corner --> Exam Tracker --> Examination Details --> Live Proctoring Report
Inventory		1. Inventory reports now include sale, sale return as well as issue return reports for saleable items. 2. Items can now be mapped in bulk on the supplier page. 3. The mandatory validation has been removed from the Item Configuration page.	Inventory --> Inventory Reports Inventory --> Transactions Settings --> Inventory Settings --> Supplier/Item Configuration
LMS	TeachNext tab	The TeachNext tab has been added in LMS, both in the browser and on the app.	Teacher Workspace --> TeachNex
Payroll	Notification regarding loans and advances	Now, the approval and rejection of loans and advances will be notified to the respective staff.	NA

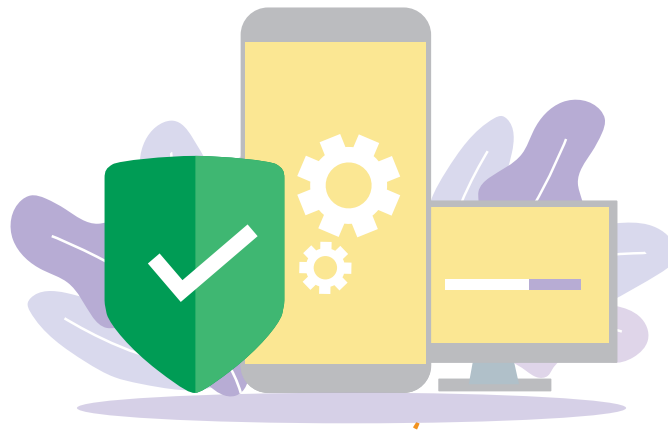

ADDITIONS IN THIS RELEASE

Staff	New Fields added for staff details	Fields for bank name, bank IFSC code, international bank account number, branch address, UAN, emergency contact name and phone number can now be added in the spreadsheet format for bulk upload	Settings --> School Setup --> Bulk Student/Staff Upload --> Staff --> Staff Advanced
Staff	Enhancements in the app interface	A colour-coded design has been implemented in the app for role differentiation.	Throughout the app
NLP app 2.25	Enhancements in live lecture attendance	Now teachers can update attendance—it can be published/unpublished or deleted—any time after the lecture is over.	Home -->Live Lecture--> Three-dot button on the lecture card
NLP app 2.25	Enhancements in Communication	Option to fill survey and observation forms has been added.	NA
LMS	Conditional availability of resources	Teachers can now publish resources with conditions. They can decide the time range and date range within which the content needs to be consumed. Teachers can also define the learning path and sequence of resources to maximise the learning output of the child. Moreover, teachers can publish different sets of content for different student groups based on their learning styles. For example, teachers can publish remedial content for slow learners and for advanced learners, complex content can be published..	TWS >> Session publish
iOS 2.5 app	Enhancements in the app interface	A colour-coded design has been implemented in the app for role differentiation.	Throughout the app
iOS 2.5 app	Enhancements to Assignment	An option to record video as part of assignment uploading is now available on the app.	Student account > Assignment

ADDITIONS IN THIS RELEASE

iOS 2.5 app	Enhancements to Assignment	An option to record video as part of assignment uploading is now available on the app.	Student account > Assignment
iOS 2.5 app	App enhancements	Full-screen iPad support has now been enabled in both portrait and landscape modes.	NA
iOS 2.5 app	Enhancements in live lecture attendance	Now teachers can update attendance—it can be published/unpublished or deleted—any time after the lecture is over.	Home >> Live Lecture >> Three-dot button on the lecture card
iOS 2.5 app	Enhancements in Communication	An option to fill survey and observation forms has now been added.	Messages > Survey and Observation Forms

INSTALLATION/UPGRADE NOTES

We highly recommend the use of Mozilla Firefox and Google Chrome browsers to access NLP. Find the latest versions at <https://support.mozilla.org/en-US/kb/update-firefox-latest-version>

Use the latest version of Adobe Reader for downloads. It can be accessed at <http://get.adobe.com/reader>
