## Dear Sir/Madam,

In our endeavor to provide quality education, we have implemented our premier software, NextLearningPlatform (NLP), in your school. Our software aims to meet the dynamic needs of present day schools. This software release incorporates new features, improvements and additions which include:

# ADDITIONS IN THIS RELEASE

Module	Feature	Description	Path
Exam Corner	Sequencing of questions in an examination	Now, teachers have the option to sequence questions in an examination. This means that the assessment would progress in only one direction and students would be able to attempt the same sequence of questions. This won't allow them to come back to the previous question after moving to the next one.	Teacher Workspace -> Select a course -> Exam Corner -> Create Examination
Exam Corner	Introduction of New Question Type 'Annotate'	New Question Type has been added named 'Annotate' which allows teachers to upload an image as a part of the assessment, where students can draw or annotate on screen and submit it. Teachers can also view students' annotations, evaluate and give feedback.	Teacher Workspace -> Select a course -> Exam Corner -> Create Examination
Exam Corner	Approval process enabled for Questions and Assessments	Any questions or assessments created by teachers can now go through an approval process before using them in examinations. Admin can select teachers as approvers of the said questions and assessments.	Admin login -> LMS Settings -> Resource Approval  Teacher Workspace -> Select a course -> Exam Corner -> Question Bank -> Drafts  Teacher Workspace -> Select a course -> Exam Corner -> Assessments Library -> Drafts
Exam Corner	Enhancements in Assessments	Now, Question bank/Assessment/Assignment- Annotation symbols and emojis can be used multiple times.	Teacher Workspace -> Select a course -> Exam Corner -> Select Examination -> Evaluation -> Annotate
Exam Corner	Enhancements in Assessments	Teachers can now also annotate subjective questions which are attempted online (onscreen) by the students.	Teacher Workspace -> Select a course -> Exam Corner -> Select Examination -> Evaluation -> Annotate

# ADDITIONS IN THIS RELEASE

Exam Corner	Conditional publish of resources based on student groups, sequence, date and time	<p>Teachers now have better control over making learning resources available to students. This feature allows teachers to make resources available to only a selected group(s) of students for a specified range of dates and time in a particular sequence.</p> <p>This helps students go through learning materials in a highly effective way and enhance their learning experience. Teachers can also hide or lock resources that are not yet available to students.</p>	My workspace -> My courses -> Course Plan -> Resources -> Resource Publish
LMS	Lecture Edit improvements for teachers	Teachers can update attendance, publish/unpublish or delete the lecture recording anytime after the lecture is over.	Teacher Workspace -> My workspace-> Live Lectures -> More option on lecture cards
LMS	For UAE Schools	<p>Arabic alphabetically sorting is included on the assignment and assessment evaluation screens.</p> <p>Masterclasses will be reflected in Arabic under the TWS module.</p>	<p>My Workspace -&gt; Assignment/ Assessment -&gt; Assignment/ Assessment Card -&gt; Evaluation -&gt; Student Dropdown.</p> <p>My Workspace -&gt; My courses -&gt; Library -&gt; Global Resource Library -&gt; Class Filter</p>
LMS	Course Boundary Relaxation	<p>Now, teachers can create courses with students from across sections and grades, and such courses can be filtered based on subjects.</p> <p>Also, Live lectures, Assignments, and Exam Corner support are added for courses spanning sections/grades.</p>	Teacher Workspace -> My workspace-> My courses-> Create Course
Inventory	Enhancements in Inventory	<p>Returned status for the issued items will be displayed on the transaction pages after the items have been returned.</p> <p>Delete option has been added to the store page.</p> <p>New Purchase Order Work-Flow has also been introduced.</p> <p>There will be an option to include a proforma invoice while creating a purchase order.</p>	<p>Inventory -&gt; Transactions -&gt; Issue Settings --&gt; Inventory Settings --&gt; Stores Inventory --&gt; Purchase Request Inventory -&gt; Purchase Request -&gt; Select any purchase --&gt; Purchase Order Tab</p>

# ADDITIONS IN THIS RELEASE

Communication	Enhancement in communication	Users will be able to fill Survey & Observation Forms from the app.	Mobile App-> Messages-> Survey & Observation Forms
NLP	Chatbot support on the login page	Chatbot (English) support is added to the login page on the web to provide resolutions for issues related to accounting login.. This will also give an appropriate message when faced with an error during the login. Help center articles are also integrated into the chat view to provide a stepwise procedure.	NA
Payroll	Enhancements in payroll	The system will be able to generate multiple salary structures for a single staff member. The payroll option is now accessible from the staff 360 pages.	Payroll> Salary Structure > Edit existing one > Create New
