NLP app release	06
LMS	06

Dear Sir/Madam,

In our endeavour to provide quality education, we have implemented our premier software, NextLearningPlatform (NLP) in your school. Our software aims to meet the dynamic needs of present-day schools. This software release incorporates new features, improvements and additions which include

ADDITIONS IN THIS RELEASE

Module	Feature	Description
Admission	Enhancements in admission/ application forms	New keys and custom fields related to medical and other demographic details have been added in the admission forms. The sequence of fields has also been made uniform across the admission form and student list.
Accounting	Enhancements in the vouchers and reconciliation	<ol style="list-style-type: none"> 1. New voucher types have been added to the master voucher list. 2. Vouchers can now be cancelled after approval from an authorised person. The toggle button for voucher cancellation must be activated to initiate the approval flow. 3. The cheque statement spreadsheet also can now be imported from the bank for bulk reconciliation.
Examination	New filter added in Activity Rubric report	Assessment option filter has now been added in the Activity Rubric report to refine the search.
Fee	Enhancement in concession reports	Now concession reports can be generated with respect to the instalments.
	Enhancements in fee acknowledgement receipt (Post-dated cheque)	There is now a provision for parent's signature and authority's signature in fee acknowledgement receipts. Also, schools can now print two copies in A4 paper size, one for the school and the other for parents.

ADDITIONS IN THIS RELEASE

Inventory	Enhancements in purchase order transactions	Now, purchase order, GRN, and purchase bill receipts are downloadable. Also, the store in charge can do the payment transaction directly from the Purchase Request page.
Payroll	Gratuity benefits calculation	The end of service and gratuity benefits calculation will now be done based on the date of joining and gratuity will be calculated till the exit process starts.
Assessment	Question tagging on the basis of depth of knowledge	Now teachers can tag questions on the basis of depth of knowledge. There are 4 levels in this Depth of Knowledge 1,2,3, and 4. The increasing number denotes the increasing intensity of knowledge. Also, Bloom's taxonomy has now been made optional for tagging.
	Enhancement in analytics	<ol style="list-style-type: none"> 1. Students and parents will now be notified when an examination is published, an evaluation begins and an evaluation is completed. 2. Teachers will be notified of the evaluation at the end of an examination. 3. School admins can enable/disable alerts for Exam Corner from the Communication module. 4. Exam corner notifications are activated by default in schools that have enabled homework alerts.
	Enhancements in Inventory	Now teachers can see the question-by-question analysis of the class and know how many students have answered a question correctly or wrongly. This will help them understand their students' performance better and allow them to prepare remedial plans accordingly.

ADDITIONS IN THIS RELEASE

NLP app release	iOS 2.6 release	Now, in pre-primary LMS, homework, assessment and live lectures are deeply linked with the feed. This means that students and staff can see these on the feed as well.
		Admin can now view fee defaulters and send them reminders as well.
		Fee transaction history has now been introduced for students and parents.
		The fee wallet recharge option has been enabled.
		In the fee dashboard, the following new analytics are available in the app as well: <ol style="list-style-type: none"> 1. Collections and payment modes 2. Fee defaulters 3. Fee collected vs to be collected 4. Concession stats 5. Fine statistics
		An option to allow students to add activities and comments (videos or photos) has been added. However, this requires approval from the teacher.
		In the tabs at the bottom, there is now a menu with buttons for Exam Corner, Assignments, TeachNext, Activity, etc.
LMS	Enhancements in resources	Now, teachers will be able to see who in the class has viewed the resources that have been added to a homework assignment. Also, now the approver can approve all the resources added by teachers that are pending approval from a single screen.
	Enhancements in assignment options	Word and ppt support have been enabled in assignments. Also, a filter has been added to sort all the assignments which are pending for evaluation together.
	Arabic Language Support	The titles of the board, class, and subject, as well as the dropdown options, will be in Arabic from now on.
	Enhancement in the feed	Now, students will also be able to create posts on the feed by attaching images, videos, audio, and notes to them. However, it will be displayed on the feed only after the teacher has approved it. Student posting has been disabled by default, but it can be enabled from the settings.

INSTALLATION/UPGRADE NOTES

We highly recommend the use of Mozilla Firefox and Google Chrome browsers to access NLP. Find the latest versions at <https://support.mozilla.org/en-US/kb/update-firefox-latest-version>

Use the latest version of Adobe Reader for downloads. It can be accessed at <http://get.adobe.com/reader>
